Tasks

Tasks	w1	w2	w3	w4	w5	w6	w7	w8	w9	w10	w11	w12	w13	w14
Project assessment	■	■												
build understanding of entanglement		■	■	■										
build understanding of bound entanglement			■	■	■									
look into channels in information theory				■	■	■								
understand classical key distribution				■	■	■								
Look into the different measurements of entanglement and information-theoretic							■	■						
look into general tripartite probability								■						
Look for the tripartite probability distribution									▨	▨	▨	▨		
writing thesis											■	■	■	■
writing poster													■	■
Milestones:		A			B			C						F

Milestones :

A Project assessment

B Understanding of quantum entanglement

C Understanding of classical key distribution

F Final submission
